- White hose with chrome ribbon; two conical nuts
- 1/2"-14 NPSM connection points
- Overall length - 70" (1778 mm)

WARNING: Plumbing Codes require that shower heads and hand showers provide a small but continuous flow of water (trickle) when in “PAUSE” mode. Because of this continuous flow, in certain circumstances pressure variations in the water line and/or changes in the position of shower temperature control handle while in “PAUSE” mode could result in dramatic changes to the temperature of the water when the shower head or hand shower is returned to the “ON” position.

ALWAYS point the shower head away from yourself when returning to the “ON” position and feel the water with your hand before resuming your shower to ensure the water flow is not too hot or too cold. DO NOT allow children or others who might not understand this warning to use the “PAUSE” function.

Finishes Available	Model Number
